Trends in Academic Performance in Montgomery County, Alabama

VERSION 2025.1

This report summarizes district-level educational outcomes using data from the Stanford Education Data Archive (SEDA) from 2009-2025. Figures may contain gaps where source data are unavailable.

For more information, please visit edopportunity.org

Report created by the Educational Opportunity Project at Stanford University in collaboration with the Education Scorecard at Harvard University, using data provided by the National Center for Education Statistics and the Education Data Center. See final page for full information on data sources.

Montgomery County, Alabama

Average Grade 3-8 Test Scores, 2022-2025, by District Socioeconomic Status

Average test scores in grades 3-8 reflect the set of educational opportunities available to students in the district, including those provided by their families, preschools, neighborhoods, and elementary and middle schools.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in Alabama are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate. Test scores are measured in grade levels relative to the 2019 national average.

Average Test Scores and Trends, 2022-2025

ALL STUDENTS

	2022-2025 Average Scores	2022-2025 Trend in Test Scores
Montgomery County	-2.89	0.06
Similar Districts Avg.*	-1.97	0.06
Alabama	-0.86	0.05

Test scores are reported in grade level units, relative to the 2019 national average. For example, the first row above reads: "Students in Montgomery County performed 2.89 grade levels below the 2019 national average. Test scores in Montgomery County have been changing at a rate of +0.06 grade levels/year since 2022."

*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Montgomery County are Birmingham City, Dothan City, Tuscaloosa City, Opelika City, and Huntsville City.

STUDENT SUBGROUPS

	2022-2025 Average Scores	2022-2025 Trend in Test Scores
White	N/A	N/A
Black	N/A	N/A
Hispanic	N/A	N/A
Asian	N/A	N/A
Poor	-3.47	0.08
Non-Poor	-0.61	0.35
Female	-2.62	0.07
Male	-3.17	0.05

Montgomery County, Alabama

Academic Performance Rankings, 2022-2025, Relative to Other Districts in the U.S.

Math Ranks

	Average	Trend
● Montgomery County	9,959 / 10,205 (2nd pct)	445 / 5,468 (92nd pct)
● Similar Districts Avg.	8,989 / 10,205 (12th pct)	1,886 / 5,468 (66th pct)

Montgomery County ranked higher than 2% of districts nationwide in average math performance during the 2022-25 school years (9,959th of 10,205 districts with available data).

Reading Ranks

	Average	Trend
● Montgomery County	9,672 / 10,076 (4th pct)	4,108 / 5,673 (28th pct)
● Similar Districts Avg.	8,364 / 10,076 (17th pct)	3,020 / 5,673 (47th pct)

Montgomery County ranked higher than 4% of districts nationwide in average reading performance during the 2022-25 school years (9,672nd of 10,076 districts with available data).

Math Ranks by Race/Ethnicity

No subgroup data available

Reading Ranks by Race/Ethnicity

No subgroup data available

Math Ranks by Income

	Average	Trend
● Low-income	8,747 / 8,875 (1st pct)	271 / 2,855 (91st pct)
● Not low-income	7,681 / 8,489 (10th pct)	44 / 3,127 (99th pct)

Reading Ranks by Income

	Average	Trend
● Low-income	8,781 / 8,987 (2nd pct)	2,063 / 3,186 (35th pct)
● Not low-income	6,661 / 8,596 (23rd pct)	167 / 3,311 (95th pct)

Math Ranks by Gender

	Average	Trend
● Female	8,274 / 8,509 (3rd pct)	207 / 3,219 (94th pct)
● Male	8,333 / 8,497 (2nd pct)	260 / 2,971 (91st pct)

Reading Ranks by Gender

	Average	Trend
● Female	8,276 / 8,670 (5th pct)	2,280 / 3,483 (35th pct)
● Male	8,350 / 8,652 (3rd pct)	2,712 / 3,418 (21st pct)

Montgomery County, Alabama

Average Grades 3-8 Learning Rates, 2022-2025, by District Socioeconomic Status

Learning rates measure how much students' scores improve as they progress from grade to grade. They are a better indicator of school quality than average test scores, which are influenced by a range of experiences outside of school.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in Alabama are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate.

Learning Rates and Trends, 2022-2025

ALL STUDENTS

	2022-2025 Learning Rate	2022-2025 Trend in Learning Rates
Montgomery County	0.78	-0.05
Similar Districts Avg.*	0.88	-0.05
Alabama	0.87	-0.03

Learning rates are measured in grade levels of skills gained per year and are averaged over math and reading. The national average learning rate is 1.0. For example, the first row above reads: "Students in Montgomery County learned an average of 0.78 grade levels/year during 2022-2025. Learning rates in Montgomery County have been changing at a rate of -0.05 grade levels/year since 2022."

*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Montgomery County are Birmingham City, Dothan City, Tuscaloosa City, Opelika City, and Huntsville City.

Learning Rate Rankings

	Average	Trend
Montgomery County	6,732 / 8,147 (17th pct)	4,675 / 6,065 (23rd pct)
Similar Districts Avg.	5,994 / 8,147 (26th pct)	4,707 / 6,065 (22nd pct)

Montgomery County ranked higher than 17% of districts nationwide in average learning rates during the 2022-25 school years (6,732nd of 8,147 districts with available data).

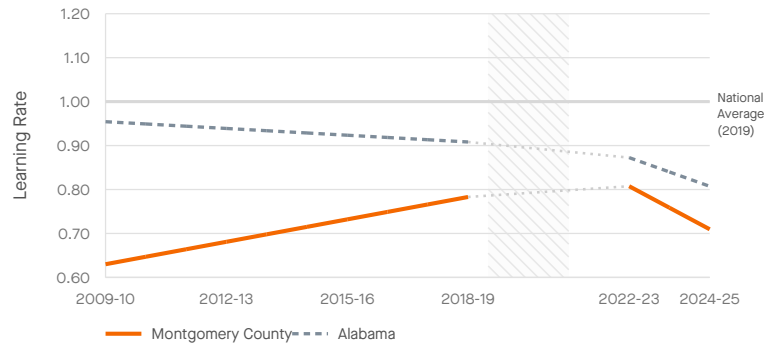

Montgomery County, Alabama

Trends in Average Grade 3-8 Learning Rates, 2009-2025, by Student Subgroup

Trends in learning rates measure how annual learning rates change over time. They are a better indicator of changes in school quality than trends in average test scores, which are influenced by a range of experiences outside of school.

Notes & Acknowledgments

This report summarizes academic performance in Montgomery County from 2008-09 through 2024-25, using data from the Stanford Education Data Archive (SEDA). SEDA is a national database of U.S. academic performance produced by the Educational Opportunity Project at Stanford University. The SEDA data are based on the standardized accountability tests in math and reading language arts (RLA) administered by each state to all public-school students in grades 3-8.

The raw test score data used to construct the SEDA 2022-2025 estimates here were graciously provided to us by Emily Oster and Clare Halloran at the [Education Data Center](#). The raw test score data used to construct the SEDA 2009-2019 estimates are available through the ED*Facts* data system at the U.S. Department of Education, and were provided to us by the National Center for Education Statistics (NCES). Detailed NAEP data used to harmonize test scores across states was provided by NCES and the National Assessment Governing Board. Chronic absenteeism data were provided by [Nat Malkus at the American Enterprise Institute](#). Funding to construct and analyze SEDA was provided by the Gates Foundation. Funding for the Education Scorecard was provided by the Carnegie Corporation of New York, Bloomberg Philanthropies, Joyce Foundation, Kenneth C. Griffin and Citadel Catalyst. The findings and opinions expressed in our research and reported here are those of the authors alone; they do not represent the views of any of the above organizations.
