Trends in Academic Performance in Arkansas

VERSION 2025.1

This report summarizes district-level educational outcomes using data from the Stanford Education Data Archive (SEDA) from 2009-2025. Figures may contain gaps where source data are unavailable.

For more information, please visit edopportunity.org

Report created by the Educational Opportunity Project at Stanford University in collaboration with the Education Scorecard at Harvard University, using data provided by the National Center for Education Statistics and the Education Data Center. See final page for full information on data sources.

Arkansas

Average Grade 3-8 Test Scores, 2022-2025, by State Socioeconomic Status

Average test scores in grades 3-8 reflect the set of educational opportunities available to students in the district, including those provided by their families, preschools, neighborhoods, and elementary and middle schools.

Note: each bubble is a U.S. state, with size proportional to state enrollment. State socioeconomic status is a composite measure of average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate. Test scores are measured in grade levels relative to the 2019 national average.

Average Test Scores and Trends, 2022-2025

ALL STUDENTS

	2022-2025 Average Scores	2022-2025 Trend in Test Scores
Arkansas	-0.90	0.03
National Average	-0.46	0.00

Test scores are reported in grade level units, relative to the 2019 national average. For example, the first row above reads: "Students in Arkansas performed 0.90 grade levels below the 2019 national average. Test scores in Arkansas have been changing at a rate of +0.03 grade levels/year since 2022."

STUDENT SUBGROUPS

	2022-2025 Average Scores	2022-2025 Trend in Test Scores
White	N/A	N/A
Black	N/A	N/A
Hispanic	N/A	N/A
Asian	N/A	N/A
Poor	N/A	N/A
Non-Poor	N/A	N/A
Female	N/A	N/A
Male	N/A	N/A

Arkansas

Trends in Average Grade 3-8 Test Scores, 2009-2025, by Subject and Student Subgroup

Trends in test scores may reflect changes in school quality, changes in demographics, and/or changes in out-of-school educational opportunities.

Arkansas

Academic Performance Rankings, 2022-2025, Relative to Other States in the U.S.

Math Ranks

	Average	Trend
Arkansas	46 / 51 (10th pct)	22 / 51 (58th pct)

Arkansas ranked higher than 10% of states nationwide in average math performance during the 2022-25 school years (46th of 51 states with available data).

Reading Ranks

	Average	Trend
Arkansas	44 / 51 (14th pct)	24 / 51 (54th pct)

Arkansas ranked higher than 14% of states nationwide in average reading performance during the 2022-25 school years (44th of 51 states with available data).

Math Ranks by Race/Ethnicity

	Average	Trend
White	39 / 41 (5th pct)	15 / 41 (65th pct)
Black	33 / 40 (18th pct)	15 / 37 (61st pct)
Hispanic	21 / 41 (50th pct)	23 / 39 (42nd pct)
Asian	24 / 40 (41st pct)	12 / 36 (69th pct)

Reading Ranks by Race/Ethnicity

No subgroup data available

Math Ranks by Income

	Average	Trend
Low-income	30 / 44 (33rd pct)	33 / 44 (26th pct)
Not low-income	31 / 44 (30th pct)	N/A

Reading Ranks by Income

No subgroup data available

Math Ranks by Gender

	Average	Trend
Female	37 / 42 (12th pct)	15 / 42 (66th pct)
Male	40 / 43 (7th pct)	16 / 43 (64th pct)

Reading Ranks by Gender

No subgroup data available

Arkansas

Average Grades 3-8 Learning Rates, 2022-2025, by State Socioeconomic Status

Learning rates measure how much students' scores improve as they progress from grade to grade. They are a better indicator of school quality than average test scores, which are influenced by a range of experiences outside of school.

Note: each bubble is a U.S. state, with size proportional to state enrollment. State socioeconomic status is a composite measure of average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate.

Learning Rates and Trends, 2022-2025

Learning Rate Rankings

ALL STUDENTS

	2022-2025 Learning Rate	2022-2025 Trend in Learning Rates
Arkansas	0.98	-0.03
National Average	0.96	-0.01

Learning rates are measured in grade levels of skills gained per year and are averaged over math and reading. The national average learning rate is 1.0. For example, the first row above reads: "Students in Arkansas learned an average of 0.98 grade levels/year during 2022-2025. Learning rates in Arkansas have been changing at a rate of -0.03 grade levels/year since 2022."

	Average	Trend
Arkansas	16 / 51 (71st pct)	45 / 51 (12th pct)

Arkansas ranked higher than 71% of states nationwide in average learning rates during the 2022-25 school years (16th of 51 states with available data).

Arkansas

Trends in Average Grade 3-8 Learning Rates, 2009–2025, by Student Subgroup

Trends in learning rates measure how annual learning rates change over time. They are a better indicator of changes in school quality than trends in average test scores, which are influenced by a range of experiences outside of school.

Notes & Acknowledgments

This report summarizes academic performance in Arkansas from 2008-09 through 2024-25, using data from the Stanford Education Data Archive (SEDA). SEDA is a national database of U.S. academic performance produced by the Educational Opportunity Project at Stanford University. The SEDA data are based on the standardized accountability tests in math and reading language arts (RLA) administered by each state to all public-school students in grades 3-8.

The raw test score data used to construct the SEDA 2022-2025 estimates here were graciously provided to us by Emily Oster and Clare Halloran at the [Education Data Center](#). The raw test score data used to construct the SEDA 2009-2019 estimates are available through the [EDFacts](#) data system at the U.S. Department of Education, and were provided to us by the National Center for Education Statistics (NCES). Detailed NAEP data used to harmonize test scores across states was provided by NCES and the National Assessment Governing Board. Chronic absenteeism data were provided by [Nat Malkus at the American Enterprise Institute](#). Funding to construct and analyze SEDA was provided by the Gates Foundation. Funding for the Education Scorecard was provided by the Carnegie Corporation of New York, Bloomberg Philanthropies, Joyce Foundation, Kenneth C. Griffin and Citadel Catalyst. The findings and opinions expressed in our research and reported here are those of the authors alone; they do not represent the views of any of the above organizations.
