Trends in Academic Performance in Guilford School District, Connecticut

VERSION 2025.1

This report summarizes district-level educational outcomes using data from the Stanford Education Data Archive (SEDA) from 2009-2025. Figures may contain gaps where source data are unavailable.

For more information, please visit edopportunity.org

Report created by the Educational Opportunity Project at Stanford University in collaboration with the Education Scorecard at Harvard University, using data provided by the National Center for Education Statistics and the Education Data Center. See final page for full information on data sources.

Guilford School District, Connecticut

Average Grade 3-8 Test Scores, 2022-2025, by District Socioeconomic Status

Average test scores in grades 3-8 reflect the set of educational opportunities available to students in the district, including those provided by their families, preschools, neighborhoods, and elementary and middle schools.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in Connecticut are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate. Test scores are measured in grade levels relative to the 2019 national average.

Average Test Scores and Trends, 2022-2025

ALL STUDENTS

	2022-2025 Average Scores	2022-2025 Trend in Test Scores
Guilford School District	2.07	0.03
Similar Districts Avg.*	2.12	0.05
Connecticut	-0.09	0.02

Test scores are reported in grade level units, relative to the 2019 national average. For example, the first row above reads: "Students in Guilford School District performed 2.07 grade levels above the 2019 national average. Test scores in Guilford School District have been changing at a rate of +0.03 grade levels/year since 2022."

*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Guilford School District are Monroe School District, Newtown School District, Canton School District, Simsbury School District, and Madison School District.

STUDENT SUBGROUPS

	2022-2025 Average Scores	2022-2025 Trend in Test Scores

Guilford School District, Connecticut

Academic Performance Rankings, 2022-2025, Relative to Other Districts in the U.S.

Math Ranks

	Average	Trend
● Guilford School District	735 / 10,205 (93rd pct)	2,231 / 5,468 (59th pct)
● Similar Districts Avg.	650 / 10,205 (94th pct)	2,414 / 5,468 (56th pct)

Guilford School District ranked higher than 93% of districts nationwide in average math performance during the 2022-25 school years (735th of 10,205 districts with available data).

Reading Ranks

	Average	Trend
● Guilford School District	354 / 10,076 (96th pct)	1,523 / 5,673 (73rd pct)
● Similar Districts Avg.	453 / 10,076 (96th pct)	1,100 / 5,673 (81st pct)

Guilford School District ranked higher than 96% of districts nationwide in average reading performance during the 2022-25 school years (354th of 10,076 districts with available data).

Math Ranks by Race/Ethnicity

	Average	Trend
● White	961 / 8,707 (89th pct)	1,702 / 3,582 (52nd pct)

Reading Ranks by Race/Ethnicity

	Average	Trend
● White	423 / 8,785 (95th pct)	1,404 / 3,941 (64th pct)

Math Ranks by Income

	Average	Trend
● Low-income	774 / 8,875 (91st pct)	N/A
● Not low-income	985 / 8,489 (88th pct)	1,522 / 3,127 (51st pct)

Reading Ranks by Income

	Average	Trend
● Low-income	162 / 8,987 (98th pct)	N/A
● Not low-income	441 / 8,596 (95th pct)	1,367 / 3,311 (59th pct)

Math Ranks by Gender

	Average	Trend
● Female	753 / 8,509 (91st pct)	1,447 / 3,219 (55th pct)
● Male	627 / 8,497 (93rd pct)	1,205 / 2,971 (59th pct)

Reading Ranks by Gender

	Average	Trend
● Female	487 / 8,670 (94th pct)	1,036 / 3,483 (70th pct)
● Male	247 / 8,652 (97th pct)	875 / 3,418 (74th pct)

Guilford School District, Connecticut

Average Grades 3-8 Learning Rates, 2022-2025, by District Socioeconomic Status

Learning rates measure how much students' scores improve as they progress from grade to grade. They are a better indicator of school quality than average test scores, which are influenced by a range of experiences outside of school.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in Connecticut are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate.

Learning Rates and Trends, 2022-2025

Learning Rate Rankings

ALL STUDENTS

	2022-2025 Learning Rate	2022-2025 Trend in Learning Rates
Guilford School District	1.08	0.00
Similar Districts Avg.*	1.07	0.01
Connecticut	1.01	-0.01

Learning rates are measured in grade levels of skills gained per year and are averaged over math and reading. The national average learning rate is 1.0. For example, the first row above reads: "Students in Guilford School District learned an average of 1.08 grade levels/year during 2022-2025. Learning rates in Guilford School District have been changing at a rate of 0.00 grade levels/year since 2022."

	Average	Trend
● Guilford School District	1,929 / 8,147 (76th pct)	2,430 / 6,065 (60th pct)
● Similar Districts Avg.	1,891 / 8,147 (77th pct)	1,450 / 6,065 (76th pct)

*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Guilford School District are Monroe School District, Newtown School District, Canton School District, Simsbury School District, and Madison School District.

Guilford School District ranked higher than 76% of districts nationwide in average learning rates during the 2022-25 school years (1,929th of 8,147 districts with available data).

Guilford School District, Connecticut

Trends in Average Grade 3-8 Learning Rates, 2009-2025, by Student Subgroup

Trends in learning rates measure how annual learning rates change over time. They are a better indicator of changes in school quality than trends in average test scores, which are influenced by a range of experiences outside of school.

Notes & Acknowledgments

This report summarizes academic performance in Guilford School District from 2008-09 through 2024-25, using data from the Stanford Education Data Archive (SEDA). SEDA is a national database of U.S. academic performance produced by the Educational Opportunity Project at Stanford University. The SEDA data are based on the standardized accountability tests in math and reading language arts (RLA) administered by each state to all public-school students in grades 3-8.

The raw test score data used to construct the SEDA 2022-2025 estimates here were graciously provided to us by Emily Oster and Clare Halloran at the [Education Data Center](#). The raw test score data used to construct the SEDA 2009-2019 estimates are available through the ED*Facts* data system at the U.S. Department of Education, and were provided to us by the National Center for Education Statistics (NCES). Detailed NAEP data used to harmonize test scores across states was provided by NCES and the National Assessment Governing Board. Chronic absenteeism data were provided by [Nat Malkus at the American Enterprise Institute](#). Funding to construct and analyze SEDA was provided by the Gates Foundation. Funding for the Education Scorecard was provided by the Carnegie Corporation of New York, Bloomberg Philanthropies, Joyce Foundation, Kenneth C. Griffin and Citadel Catalyst. The findings and opinions expressed in our research and reported here are those of the authors alone; they do not represent the views of any of the above organizations.
