# Trends in Academic Performance in Central R-III, Missouri

VERSION 2025.1

This report summarizes district-level educational outcomes using data from the Stanford Education Data Archive (SEDA) from 2009-2025. Figures may contain gaps where source data are unavailable.

For more information, please visit [edopportunity.org](https://edopportunity.org)

Report created by the Educational Opportunity Project at Stanford University in collaboration with the Education Scorecard at Harvard University, using data provided by the National Center for Education Statistics and the Education Data Center. See final page for full information on data sources.

# Central R-III, Missouri

## Average Grade 3-8 Test Scores, 2022-2025, by District Socioeconomic Status

Average test scores in grades 3-8 reflect the set of educational opportunities available to students in the district, including those provided by their families, preschools, neighborhoods, and elementary and middle schools.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in Missouri are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate. Test scores are measured in grade levels relative to the 2019 national average.

## Average Test Scores and Trends, 2022-2025

### ALL STUDENTS

	2022-2025 Average Scores	2022-2025 Trend in Test Scores
Central R-III	-0.53	-0.06
Similar Districts Avg.*	-0.98	-0.04
Missouri	-0.62	0.00

Test scores are reported in grade level units, relative to the 2019 national average. For example, the first row above reads: "Students in Central R-III performed 0.53 grade levels below the 2019 national average. Test scores in Central R-III have been changing at a rate of -0.06 grade levels/year since 2022."

\*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Central R-III are Nevada R-V, St. Clair R-XIII, Clinton, Salem R-80, and Cameron R-I.

### STUDENT SUBGROUPS

	2022-2025 Average Scores	2022-2025 Trend in Test Scores
White	-0.49	-0.06
Black	N/A	N/A
Hispanic	N/A	N/A
Asian	N/A	N/A
Poor	-1.27	-0.09
Non-Poor	0.35	0.04
Female	N/A	N/A
Male	N/A	N/A

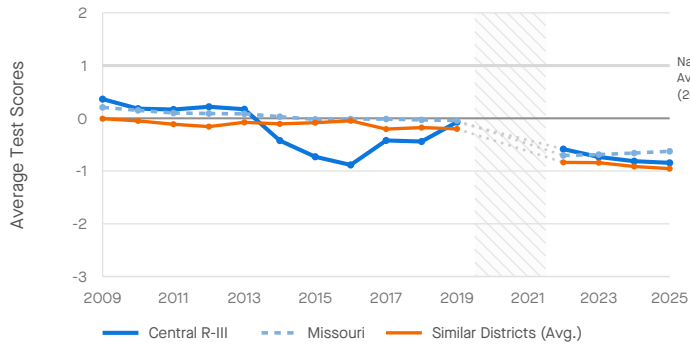

# Central R-III, Missouri

## Trends in Average Grade 3-8 Test Scores, 2009-2025, by Subject and Student Subgroup

Trends in test scores may reflect changes in school quality, changes in demographics, and/or changes in out-of-school educational opportunities.

## Academic Performance Rankings, 2022-2025, Relative to Other Districts in the U.S.

### Math Ranks

	Average	Trend
● Central R-III	5,823 / 10,205 (43rd pct)	4,176 / 5,468 (24th pct)
● Similar Districts Avg.	7,088 / 10,205 (31st pct)	3,896 / 5,468 (29th pct)

Central R-III ranked higher than 43% of districts nationwide in average math performance during the 2022-25 school years (5,823rd of 10,205 districts with available data).

### Reading Ranks

	Average	Trend
● Central R-III	5,001 / 10,076 (50th pct)	3,745 / 5,673 (34th pct)
● Similar Districts Avg.	6,816 / 10,076 (32nd pct)	3,554 / 5,673 (37th pct)

Central R-III ranked higher than 50% of districts nationwide in average reading performance during the 2022-25 school years (5,001st of 10,076 districts with available data).

### Math Ranks by Race/Ethnicity

	Average	Trend
● White	6,176 / 8,707 (29th pct)	2,843 / 3,582 (21st pct)

### Reading Ranks by Race/Ethnicity

	Average	Trend
● White	5,683 / 8,785 (35th pct)	2,880 / 3,941 (27th pct)

### Math Ranks by Income

	Average	Trend
● Low-income	4,927 / 8,875 (44th pct)	2,323 / 2,855 (19th pct)
● Not low-income	5,159 / 8,489 (39th pct)	2,086 / 3,127 (33rd pct)

### Reading Ranks by Income

	Average	Trend
● Low-income	4,075 / 8,987 (55th pct)	2,415 / 3,186 (24th pct)
● Not low-income	4,375 / 8,596 (49th pct)	1,574 / 3,311 (52nd pct)

### Math Ranks by Gender

No subgroup data available

### Reading Ranks by Gender

No subgroup data available

## Average Grades 3-8 Learning Rates, 2022-2025, by District Socioeconomic Status

Learning rates measure how much students' scores improve as they progress from grade to grade. They are a better indicator of school quality than average test scores, which are influenced by a range of experiences outside of school.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in Missouri are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate.

### Learning Rates and Trends, 2022-2025

### Learning Rate Rankings

#### ALL STUDENTS

	2022-2025 Learning Rate	2022-2025 Trend in Learning Rates
Central R-III	1.03	0.09
Similar Districts Avg.*	1.03	-0.04
Missouri	0.96	-0.01

Learning rates are measured in grade levels of skills gained per year and are averaged over math and reading. The national average learning rate is 1.0. For example, the first row above reads: "Students in Central R-III learned an average of 1.03 grade levels/year during 2022-2025. Learning rates in Central R-III have been changing at a rate of +0.09 grade levels/year since 2022."

\*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Central R-III are Nevada R-V, St. Clair R-XIII, Clinton, Salem R-80, and Cameron R-I.

	Average	Trend
Central R-III	2,697 / 8,147 (67th pct)	154 / 6,065 (97th pct)
Similar Districts Avg.	3,383 / 8,147 (58th pct)	4,459 / 6,065 (26th pct)

Central R-III ranked higher than 67% of districts nationwide in average learning rates during the 2022-25 school years (2,697th of 8,147 districts with available data).

# Central R-III, Missouri

## Trends in Average Grade 3-8 Learning Rates, 2009–2025, by Student Subgroup

Trends in learning rates measure how annual learning rates change over time. They are a better indicator of changes in school quality than trends in average test scores, which are influenced by a range of experiences outside of school.

## Notes & Acknowledgments

This report summarizes academic performance in Central R-III from 2008-09 through 2024-25, using data from the Stanford Education Data Archive (SEDA). SEDA is a national database of U.S. academic performance produced by the Educational Opportunity Project at Stanford University. The SEDA data are based on the standardized accountability tests in math and reading language arts (RLA) administered by each state to all public-school students in grades 3-8.

The raw test score data used to construct the SEDA 2022-2025 estimates here were graciously provided to us by Emily Oster and Clare Halloran at the [Education Data Center](#). The raw test score data used to construct the SEDA 2009-2019 estimates are available through the [EDFacts](#) data system at the U.S. Department of Education, and were provided to us by the National Center for Education Statistics (NCES). Detailed NAEP data used to harmonize test scores across states was provided by NCES and the National Assessment Governing Board. Chronic absenteeism data were provided by [Nat Malkus at the American Enterprise Institute](#). Funding to construct and analyze SEDA was provided by the Gates Foundation. Funding for the Education Scorecard was provided by the Carnegie Corporation of New York, Bloomberg Philanthropies, Joyce Foundation, Kenneth C. Griffin and Citadel Catalyst. The findings and opinions expressed in our research and reported here are those of the authors alone; they do not represent the views of any of the above organizations.
