Trends in Academic Performance in Summit School District 54-6, South Dakota

VERSION 2025.1

This report summarizes district-level educational outcomes using data from the Stanford Education Data Archive (SEDA) from 2009-2025. Figures may contain gaps where source data are unavailable.

For more information, please visit edopportunity.org

Report created by the Educational Opportunity Project at Stanford University in collaboration with the Education Scorecard at Harvard University, using data provided by the National Center for Education Statistics and the Education Data Center. See final page for full information on data sources.

Summit School District 54-6, South Dakota

Average Grade 3-8 Test Scores, 2022-2025, by District Socioeconomic Status

Average test scores in grades 3-8 reflect the set of educational opportunities available to students in the district, including those provided by their families, preschools, neighborhoods, and elementary and middle schools.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in South Dakota are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate. Test scores are measured in grade levels relative to the 2019 national average.

Average Test Scores and Trends, 2022-2025

ALL STUDENTS

| | 2022-2025 Average Scores | 2022-2025 Trend in Test Scores |
|------------------------------------|-----------------------------|-----------------------------------|
| Summit School District 54-6 | -2.08 | N/A |
| Similar Districts Avg.* | -0.06 | 0.15 |
| South Dakota | -0.10 | -0.05 |

Test scores are reported in grade level units, relative to the 2019 national average. For example, the first row above reads: "Students in Summit School District 54-6 performed a certain number of grade levels above or below the 2019 national average. Test scores in Summit School District 54-6 have been changing at a measured grade-level rate since 2022."

*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Summit School District 54-6 are Highmore-Harrod School District 34-2, Wall School District 51-5, Wilmot School District 54-7, Rosholt School District 54-4, and Jones County School District 37-3.

STUDENT SUBGROUPS

| | 2022-2025 Average Scores | 2022-2025 Trend in Test Scores |
|-----------------|-----------------------------|-----------------------------------|
| White | N/A | N/A |
| Black | N/A | N/A |
| Hispanic | N/A | N/A |
| Asian | N/A | N/A |
| Poor | N/A | N/A |
| Non-Poor | -1.81 | N/A |
| Female | N/A | N/A |
| Male | N/A | N/A |

Summit School District 54-6, South Dakota

Trends in Average Grade 3-8 Test Scores, 2009-2025, by Subject and Student Subgroup

Trends in test scores may reflect changes in school quality, changes in demographics, and/or changes in out-of-school educational opportunities.

Academic Performance Rankings, 2022-2025, Relative to Other Districts in the U.S.

Math Ranks

| | Average | Trend |
|-------------------------------|---------------------------|-------|
| ● Summit School District 54-6 | 8,835 / 10,205 (13th pct) | N/A |
| ● Similar Districts Avg. | 3,281 / 10,205 (68th pct) | N/A |

Summit School District 54-6 ranked higher than 13% of districts nationwide in average math performance during the 2022-25 school years (8,835th of 10,205 districts with available data).

Reading Ranks

| | Average | Trend |
|-------------------------------|---------------------------|-------|
| ● Summit School District 54-6 | 9,185 / 10,076 (9th pct) | N/A |
| ● Similar Districts Avg. | 4,903 / 10,076 (51st pct) | N/A |

Summit School District 54-6 ranked higher than 9% of districts nationwide in average reading performance during the 2022-25 school years (9,185th of 10,076 districts with available data).

Math Ranks by Race/Ethnicity

Summit School District 54-6, South Dakota

Average Grades 3-8 Learning Rates, 2022-2025, by District Socioeconomic Status

Learning rates measure how much students' scores improve as they progress from grade to grade. They are a better indicator of school quality than average test scores, which are influenced by a range of experiences outside of school.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in South Dakota are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate.

Learning Rates and Trends, 2022-2025

Learning Rate Rankings

ALL STUDENTS

| | 2022-2025 Learning Rate | 2022-2025 Trend in Learning Rates |
|------------------------------------|-------------------------|-----------------------------------|
| Summit School District 54-6 | N/A | N/A |
| Similar Districts Avg.* | 1.01 | N/A |
| South Dakota | 0.98 | 0.01 |

Learning rates are measured in grade levels of skills gained per year and are averaged over math and reading. The national average learning rate is 1.0.

*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Summit School District 54-6 are Highmore-Harold School District 34-2, Wall School District 51-5, Wilmot School District 54-7, Rosholt School District 54-4, and Jones County School District 37-3.

| | Average | Trend |
|--------------------------|--------------------------|-------|
| ● Similar Districts Avg. | 3,073 / 8,147 (62nd pct) | N/A |

Summit School District 54-6 ranked among districts with available data in learning rates during the 2022-25 school years.

Notes & Acknowledgments

This report summarizes academic performance in Summit School District 54-6 from 2008-09 through 2024-25, using data from the Stanford Education Data Archive (SEDA). SEDA is a national database of U.S. academic performance produced by the Educational Opportunity Project at Stanford University. The SEDA data are based on the standardized accountability tests in math and reading language arts (RLA) administered by each state to all public-school students in grades 3-8.

The raw test score data used to construct the SEDA 2022-2025 estimates here were graciously provided to us by Emily Oster and Clare Halloran at the [Education Data Center](#). The raw test score data used to construct the SEDA 2009-2019 estimates are available through the ED*Facts* data system at the U.S. Department of Education, and were provided to us by the National Center for Education Statistics (NCES). Detailed NAEP data used to harmonize test scores across states was provided by NCES and the National Assessment Governing Board. Chronic absenteeism data were provided by [Nat Malkus at the American Enterprise Institute](#). Funding to construct and analyze SEDA was provided by the Gates Foundation. Funding for the Education Scorecard was provided by the Carnegie Corporation of New York, Bloomberg Philanthropies, Joyce Foundation, Kenneth C. Griffin and Citadel Catalyst. The findings and opinions expressed in our research and reported here are those of the authors alone; they do not represent the views of any of the above organizations.
