Trends in Academic Performance in South Dakota

VERSION 2025.1

This report summarizes district-level educational outcomes using data from the Stanford Education Data Archive (SEDA) from 2009-2025. Figures may contain gaps where source data are unavailable.

For more information, please visit edopportunity.org

Report created by the Educational Opportunity Project at Stanford University in collaboration with the Education Scorecard at Harvard University, using data provided by the National Center for Education Statistics and the Education Data Center. See final page for full information on data sources.

South Dakota

Average Grade 3-8 Test Scores, 2022-2025, by State Socioeconomic Status

Average test scores in grades 3-8 reflect the set of educational opportunities available to students in the district, including those provided by their families, preschools, neighborhoods, and elementary and middle schools.

Note: each bubble is a U.S. state, with size proportional to state enrollment. State socioeconomic status is a composite measure of average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate. Test scores are measured in grade levels relative to the 2019 national average.

Average Test Scores and Trends, 2022-2025

ALL STUDENTS

	2022-2025 Average Scores	2022-2025 Trend in Test Scores
South Dakota	-0.10	-0.05
National Average	-0.46	0.00

Test scores are reported in grade level units, relative to the 2019 national average. For example, the first row above reads: "Students in South Dakota performed 0.10 grade levels below the 2019 national average. Test scores in South Dakota have been changing at a rate of -0.05 grade levels/year since 2022."

STUDENT SUBGROUPS

	2022-2025 Average Scores	2022-2025 Trend in Test Scores
White	0.64	-0.04
Black	-1.98	0.01
Hispanic	-1.70	-0.06
Asian	0.22	-0.04
Poor	-1.93	0.00
Non-Poor	0.88	0.04
Female	0.01	-0.08
Male	-0.20	-0.03

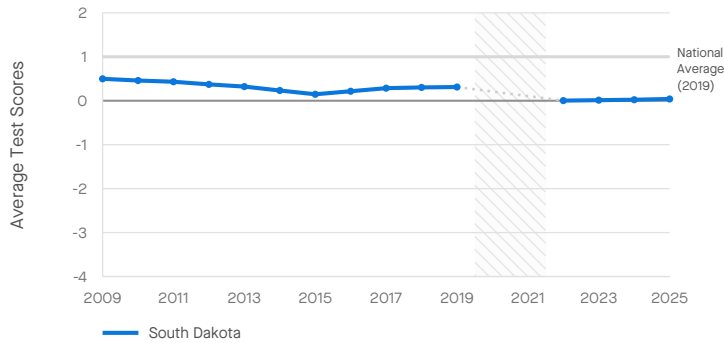

South Dakota

Trends in Average Grade 3-8 Test Scores, 2009-2025, by Subject and Student Subgroup

Trends in test scores may reflect changes in school quality, changes in demographics, and/or changes in out-of-school educational opportunities.

South Dakota

Academic Performance Rankings, 2022-2025, Relative to Other States in the U.S.

Math Ranks

Reading Ranks

South Dakota ranked higher than 84% of states nationwide in average math performance during the 2022-25 school years (9th of 51 states with available data).

South Dakota ranked higher than 68% of states nationwide in average reading performance during the 2022-25 school years (17th of 51 states with available data).

Math Ranks by Race/Ethnicity

Reading Ranks by Race/Ethnicity

	Average	Trend
White	12 / 41 (73rd pct)	40 / 41 (3rd pct)
Black	7 / 40 (85th pct)	30 / 37 (19th pct)
Hispanic	22 / 41 (48th pct)	36 / 39 (8th pct)
Asian	39 / 40 (3rd pct)	35 / 36 (4th pct)

	Average	Trend
White	26 / 41 (38th pct)	26 / 41 (38th pct)
Black	17 / 41 (60th pct)	13 / 38 (68th pct)
Hispanic	24 / 41 (43rd pct)	15 / 40 (64th pct)
Asian	35 / 40 (13th pct)	31 / 36 (14th pct)

Math Ranks by Income

Reading Ranks by Income

	Average	Trend
Low-income	25 / 44 (44th pct)	29 / 44 (35th pct)
Not low-income	18 / 44 (60th pct)	27 / 43 (38th pct)

	Average	Trend
Low-income	36 / 44 (19th pct)	15 / 44 (67th pct)
Not low-income	35 / 44 (21st pct)	21 / 44 (53rd pct)

Math Ranks by Gender

Reading Ranks by Gender

	Average	Trend
Female	5 / 42 (90th pct)	41 / 42 (2nd pct)
Male	8 / 43 (83rd pct)	42 / 43 (4th pct)

	Average	Trend
Female	18 / 43 (60th pct)	34 / 43 (21st pct)
Male	13 / 43 (71st pct)	17 / 43 (63rd pct)

South Dakota

Average Grades 3-8 Learning Rates, 2022-2025, by State Socioeconomic Status

Learning rates measure how much students' scores improve as they progress from grade to grade. They are a better indicator of school quality than average test scores, which are influenced by a range of experiences outside of school.

Note: each bubble is a U.S. state, with size proportional to state enrollment. State socioeconomic status is a composite measure of average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate.

Learning Rates and Trends, 2022-2025

ALL STUDENTS

	2022-2025 Learning Rate	2022-2025 Trend in Learning Rates
South Dakota	0.98	0.01
National Average	0.96	-0.01

Learning rates are measured in grade levels of skills gained per year and are averaged over math and reading. The national average learning rate is 1.0. For example, the first row above reads: "Students in South Dakota learned an average of 0.98 grade levels/year during 2022-2025. Learning rates in South Dakota have been changing at a rate of +0.01 grade levels/year since 2022."

Learning Rate Rankings

	Average	Trend
● South Dakota	18 / 51 (66th pct)	4 / 51 (95th pct)

South Dakota ranked higher than 66% of states nationwide in average learning rates during the 2022-25 school years (18th of 51 states with available data).

South Dakota

Trends in Average Grade 3-8 Learning Rates, 2009-2025, by Student Subgroup

Trends in learning rates measure how annual learning rates change over time. They are a better indicator of changes in school quality than trends in average test scores, which are influenced by a range of experiences outside of school.

Notes & Acknowledgments

This report summarizes academic performance in South Dakota from 2008-09 through 2024-25, using data from the Stanford Education Data Archive (SEDA). SEDA is a national database of U.S. academic performance produced by the Educational Opportunity Project at Stanford University. The SEDA data are based on the standardized accountability tests in math and reading language arts (RLA) administered by each state to all public-school students in grades 3-8.

The raw test score data used to construct the SEDA 2022-2025 estimates here were graciously provided to us by Emily Oster and Clare Halloran at the [Education Data Center](#). The raw test score data used to construct the SEDA 2009-2019 estimates are available through the [EDFacts](#) data system at the U.S. Department of Education, and were provided to us by the National Center for Education Statistics (NCES). Detailed NAEP data used to harmonize test scores across states was provided by NCES and the National Assessment Governing Board. Chronic absenteeism data were provided by [Nat Malkus at the American Enterprise Institute](#). Funding to construct and analyze SEDA was provided by the Gates Foundation. Funding for the Education Scorecard was provided by the Carnegie Corporation of New York, Bloomberg Philanthropies, Joyce Foundation, Kenneth C. Griffin and Citadel Catalyst. The findings and opinions expressed in our research and reported here are those of the authors alone; they do not represent the views of any of the above organizations.
