Trends in Academic Performance in Raymond School District, Washington

VERSION 2025.1

This report summarizes district-level educational outcomes using data from the Stanford Education Data Archive (SEDA) from 2009-2025. Figures may contain gaps where source data are unavailable.

For more information, please visit edopportunity.org

Report created by the Educational Opportunity Project at Stanford University in collaboration with the Education Scorecard at Harvard University, using data provided by the National Center for Education Statistics and the Education Data Center. See final page for full information on data sources.

Raymond School District, Washington

Average Grade 3-8 Test Scores, 2022-2025, by District Socioeconomic Status

Average test scores in grades 3-8 reflect the set of educational opportunities available to students in the district, including those provided by their families, preschools, neighborhoods, and elementary and middle schools.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in Washington are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate. Test scores are measured in grade levels relative to the 2019 national average.

Average Test Scores and Trends, 2022-2025

ALL STUDENTS

	2022-2025 Average Scores	2022-2025 Trend in Test Scores
Raymond School District	-1.23	N/A
Similar Districts Avg.*	-0.54	-0.07
Washington	-0.32	0.00

Test scores are reported in grade level units, relative to the 2019 national average. For example, the first row above reads: "Students in Raymond School District performed a certain number of grade levels above or below the 2019 national average. Test scores in Raymond School District have been changing at a measured grade-level rate since 2022."

*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Raymond School District are Northport School District, Morton School District, Selkirk School District, Odessa School District, and Republic School District.

Raymond School District, Washington

Academic Performance Rankings, 2022-2025, Relative to Other Districts in the U.S.

Math Ranks

	Average	Trend
● Raymond School District	8,654 / 10,205 (15th pct)	N/A
● Similar Districts Avg.	5,326 / 10,205 (48th pct)	N/A

Raymond School District ranked higher than 15% of districts nationwide in average math performance during the 2022-25 school years (8,654th of 10,205 districts with available data).

Reading Ranks

	Average	Trend
● Raymond School District	6,241 / 10,076 (38th pct)	N/A
● Similar Districts Avg.	5,075 / 10,076 (50th pct)	N/A

Raymond School District ranked higher than 38% of districts nationwide in average reading performance during the 2022-25 school years (6,241st of 10,076 districts with available data).

Math Ranks by Race/Ethnicity

	Average	Trend
● White	7,695 / 8,707 (12th pct)	N/A

Reading Ranks by Race/Ethnicity

	Average	Trend
● White	5,244 / 8,785 (40th pct)	N/A

Math Ranks by Income

	Average	Trend
● Low-income	8,014 / 8,875 (10th pct)	N/A
● Not low-income	7,339 / 8,489 (14th pct)	N/A

Reading Ranks by Income

	Average	Trend
● Low-income	3,730 / 8,987 (59th pct)	N/A
● Not low-income	4,255 / 8,596 (51st pct)	N/A

Math Ranks by Gender

	Average	Trend
● Female	7,261 / 8,509 (15th pct)	N/A
● Male	7,197 / 8,497 (15th pct)	N/A

Reading Ranks by Gender

	Average	Trend
● Female	4,920 / 8,670 (43rd pct)	N/A
● Male	5,682 / 8,652 (34th pct)	N/A

Raymond School District, Washington

Average Grades 3-8 Learning Rates, 2022-2025, by District Socioeconomic Status

Learning rates measure how much students' scores improve as they progress from grade to grade. They are a better indicator of school quality than average test scores, which are influenced by a range of experiences outside of school.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in Washington are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate.

Learning Rates and Trends, 2022-2025

ALL STUDENTS

	2022-2025 Learning Rate	2022-2025 Trend in Learning Rates
Raymond School District	1.08	N/A
Similar Districts Avg.*	1.04	N/A
Washington	0.98	-0.01

Learning rates are measured in grade levels of skills gained per year and are averaged over math and reading. The national average learning rate is 1.0.

*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Raymond School District are Northport School District, Morton School District, Selkirk School District, Odessa School District, and Republic School District.

Learning Rate Rankings

	Average	Trend
● Raymond School District	1,929 / 8,147 (76th pct)	N/A
● Similar Districts Avg.	2,624 / 8,147 (68th pct)	N/A

Raymond School District ranked higher than 76% of districts nationwide in average learning rates during the 2022-25 school years (1,929th of 8,147 districts with available data).

Raymond School District, Washington

Trends in Average Grade 3-8 Learning Rates, 2009-2025, by Student Subgroup

Trends in learning rates measure how annual learning rates change over time. They are a better indicator of changes in school quality than trends in average test scores, which are influenced by a range of experiences outside of school.

Notes & Acknowledgments

This report summarizes academic performance in Raymond School District from 2008-09 through 2024-25, using data from the Stanford Education Data Archive (SEDA). SEDA is a national database of U.S. academic performance produced by the Educational Opportunity Project at Stanford University. The SEDA data are based on the standardized accountability tests in math and reading language arts (RLA) administered by each state to all public-school students in grades 3-8.

The raw test score data used to construct the SEDA 2022-2025 estimates here were graciously provided to us by Emily Oster and Clare Halloran at the [Education Data Center](#). The raw test score data used to construct the SEDA 2009-2019 estimates are available through the ED*Facts* data system at the U.S. Department of Education, and were provided to us by the National Center for Education Statistics (NCES). Detailed NAEP data used to harmonize test scores across states was provided by NCES and the National Assessment Governing Board. Chronic absenteeism data were provided by [Nat Malkus at the American Enterprise Institute](#). Funding to construct and analyze SEDA was provided by the Gates Foundation. Funding for the Education Scorecard was provided by the Carnegie Corporation of New York, Bloomberg Philanthropies, Joyce Foundation, Kenneth C. Griffin and Citadel Catalyst. The findings and opinions expressed in our research and reported here are those of the authors alone; they do not represent the views of any of the above organizations.
