# Trends in Academic Performance in Marathon City School District, Wisconsin

VERSION 2025.1

This report summarizes district-level educational outcomes using data from the Stanford Education Data Archive (SEDA) from 2009-2025. Figures may contain gaps where source data are unavailable.

For more information, please visit [edopportunity.org](https://edopportunity.org)

Report created by the Educational Opportunity Project at Stanford University in collaboration with the Education Scorecard at Harvard University, using data provided by the National Center for Education Statistics and the Education Data Center. See final page for full information on data sources.

# Marathon City School District, Wisconsin

## Average Grade 3-8 Test Scores, 2022-2025, by District Socioeconomic Status

Average test scores in grades 3-8 reflect the set of educational opportunities available to students in the district, including those provided by their families, preschools, neighborhoods, and elementary and middle schools.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in Wisconsin are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate. Test scores are measured in grade levels relative to the 2019 national average.

## Average Test Scores and Trends, 2022-2025

### ALL STUDENTS

|                                      | 2022-2025<br>Average Scores | 2022-2025 Trend<br>in Test Scores |
|--------------------------------------|-----------------------------|-----------------------------------|
| <b>Marathon City School District</b> | 0.18                        | -0.04                             |
| <b>Similar Districts Avg.*</b>       | 0.65                        | -0.13                             |
| <b>Wisconsin</b>                     | -0.06                       | -0.05                             |

Test scores are reported in grade level units, relative to the 2019 national average. For example, the first row above reads: "Students in Marathon City School District performed 0.18 grade levels above the 2019 national average. Test scores in Marathon City School District have been changing at a rate of -0.04 grade levels/year since 2022."

\*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Marathon City School District are Bangor School District, Valders Area School District, Oakfield School District, Poynette School District, and Random Lake School District.

Academic Performance Rankings, 2022-2025, Relative to Other Districts in the U.S.

## Math Ranks

|                                 | Average                   | Trend                    |
|---------------------------------|---------------------------|--------------------------|
| ● Marathon City School District | 3,067 / 10,205 (70th pct) | 3,490 / 5,468 (36th pct) |
| ● Similar Districts Avg.        | 1,886 / 10,205 (82nd pct) | 4,188 / 5,468 (23rd pct) |

Marathon City School District ranked higher than 70% of districts nationwide in average math performance during the 2022-25 school years (3,067th of 10,205 districts with available data).

## Reading Ranks

|                                 | Average                   | Trend                    |
|---------------------------------|---------------------------|--------------------------|
| ● Marathon City School District | 3,750 / 10,076 (63rd pct) | 2,352 / 5,673 (59th pct) |
| ● Similar Districts Avg.        | 2,709 / 10,076 (73rd pct) | 3,655 / 5,673 (36th pct) |

Marathon City School District ranked higher than 63% of districts nationwide in average reading performance during the 2022-25 school years (3,750th of 10,076 districts with available data).

## Math Ranks by Race/Ethnicity

|         | Average                  | Trend |
|---------|--------------------------|-------|
| ● White | 3,106 / 8,707 (64th pct) | N/A   |

## Reading Ranks by Race/Ethnicity

|         | Average                  | Trend |
|---------|--------------------------|-------|
| ● White | 4,017 / 8,785 (54th pct) | N/A   |

## Math Ranks by Income

|                  | Average                  | Trend                    |
|------------------|--------------------------|--------------------------|
| ● Low-income     | 3,450 / 8,875 (61st pct) | N/A                      |
| ● Not low-income | 3,758 / 8,489 (56th pct) | 1,799 / 3,127 (42nd pct) |

## Reading Ranks by Income

|                  | Average                  | Trend |
|------------------|--------------------------|-------|
| ● Low-income     | 5,274 / 8,987 (41st pct) | N/A   |
| ● Not low-income | 4,412 / 8,596 (49th pct) | N/A   |

## Math Ranks by Gender

|          | Average                  | Trend |
|----------|--------------------------|-------|
| ● Female | 2,506 / 8,509 (71st pct) | N/A   |
| ● Male   | 3,033 / 8,497 (64th pct) | N/A   |

## Reading Ranks by Gender

|          | Average                  | Trend |
|----------|--------------------------|-------|
| ● Female | 3,142 / 8,670 (64th pct) | N/A   |
| ● Male   | 3,551 / 8,652 (59th pct) | N/A   |

# Marathon City School District, Wisconsin

## Average Grades 3-8 Learning Rates, 2022-2025, by District Socioeconomic Status

Learning rates measure how much students' scores improve as they progress from grade to grade. They are a better indicator of school quality than average test scores, which are influenced by a range of experiences outside of school.

Note: each bubble is a U.S. school district, with size proportional to district enrollment. Districts in Wisconsin are highlighted. District socioeconomic status is a composite measure of a district's average family income, parental education, poverty rate, SNAP eligibility rate, unemployment rate, and female-headed household rate.

### Learning Rates and Trends, 2022-2025

### Learning Rate Rankings

#### ALL STUDENTS

|                                      | 2022-2025 Learning Rate | 2022-2025 Trend in Learning Rates |
|--------------------------------------|-------------------------|-----------------------------------|
| <b>Marathon City School District</b> | 0.93                    | -0.06                             |
| <b>Similar Districts Avg.*</b>       | 0.98                    | -0.03                             |
| <b>Wisconsin</b>                     | 0.98                    | 0.01                              |

Learning rates are measured in grade levels of skills gained per year and are averaged over math and reading. The national average learning rate is 1.0. For example, the first row above reads: "Students in Marathon City School District learned an average of 0.93 grade levels/year during 2022-2025. Learning rates in Marathon City School District have been changing at a rate of -0.06 grade levels/year since 2022."

\*Similar districts are the nearest matches within the same state based on socioeconomic status, demographics, and size. Similar districts for Marathon City School District are Bangor School District, Valders Area School District, Oakfield School District, Poynette School District, and Random Lake School District.

|                                 | Average                  | Trend                    |
|---------------------------------|--------------------------|--------------------------|
| ● Marathon City School District | 4,547 / 8,147 (44th pct) | 4,993 / 6,065 (18th pct) |
| ● Similar Districts Avg.        | 3,907 / 8,147 (52nd pct) | 3,542 / 6,065 (42nd pct) |

Marathon City School District ranked higher than 44% of districts nationwide in average learning rates during the 2022-25 school years (4,547th of 8,147 districts with available data).

## Notes & Acknowledgments

This report summarizes academic performance in Marathon City School District from 2008-09 through 2024-25, using data from the Stanford Education Data Archive (SEDA). SEDA is a national database of U.S. academic performance produced by the Educational Opportunity Project at Stanford University. The SEDA data are based on the standardized accountability tests in math and reading language arts (RLA) administered by each state to all public-school students in grades 3-8.

The raw test score data used to construct the SEDA 2022-2025 estimates here were graciously provided to us by Emily Oster and Clare Halloran at the [Education Data Center](#). The raw test score data used to construct the SEDA 2009-2019 estimates are available through the *EDFacts* data system at the U.S. Department of Education, and were provided to us by the National Center for Education Statistics (NCES). Detailed NAEP data used to harmonize test scores across states was provided by NCES and the National Assessment Governing Board. Chronic absenteeism data were provided by [Nat Malkus at the American Enterprise Institute](#). Funding to construct and analyze SEDA was provided by the Gates Foundation. Funding for the Education Scorecard was provided by the Carnegie Corporation of New York, Bloomberg Philanthropies, Joyce Foundation, Kenneth C. Griffin and Citadel Catalyst. The findings and opinions expressed in our research and reported here are those of the authors alone; they do not represent the views of any of the above organizations.
